

As part of our Demolition and Remediation Business, we provide a Consultancy Service to aid client site purchase or make ready for construction and planning discharge.

We design and deliver the scope below:

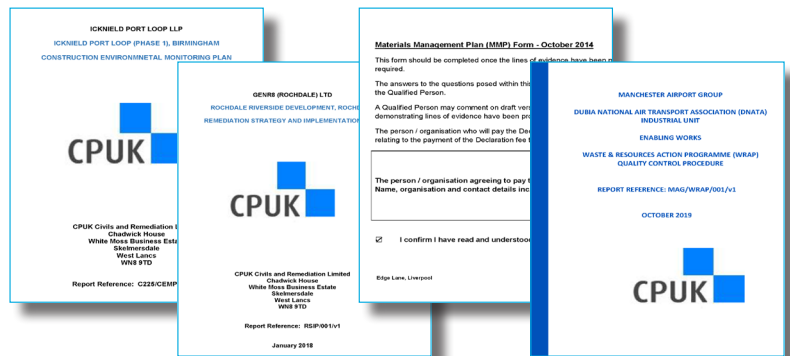

- Topographical Surveys
- CCTV Drainage Survey
- Drone Survey
- Stats Search

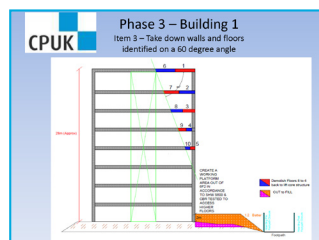

Site Investigations with Geotechnical and Chemical Testing

- Remediation Strategy Implementation Plan
- Materials Management Plan
- WRAP Protocol Proposals
- Construction Environmental Management Plan

Pre Demolition Structural Assessments (inc Asbestos surveys) and Temporary Works

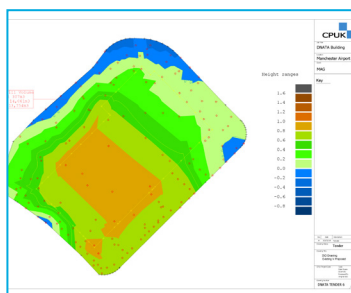

Demolition Method, Phasing Drawings, Programme and Cost Plans

Provision of on site Noise, Dust and Vibration Monitoring

Planning Discharge Documents

3D Site Modelling including Volume Assessments

Environmental Monitoring aspects for Liverpool City Council on the Churchill Way Flyover demolition
